MEDIA RELEASE

16 September 2005

Telstra reappoints SMS to Business Consulting Services panel

SMS Management & Technology Limited (SMS) [ASX:SMX] today announced its reappointment to Telstra's Business Consulting Service panel.

SMS will provide Strategy & Process Improvement Services to Telstra and its subsidiaries over the next two years across five main categories –

- Business Unit Structure & Strategy (including revenue growth and cost reduction),
- Corporate Cultural Programs,
- Productivity Management,
- Program & Project Management (including change and risk management), and
- Supply Chain Management.

Commenting on the appointment, David Moodie, ICT Industry Director for SMS said, "Reappointment to the Telstra panel demonstrates SMS's strength in successfully delivering tangible outcomes for the Australian ICT community."

Since being appointed to the panel in 2000, SMS has managed ICT projects that include mobility, convergence and program management disciplines.

This announcement follows the recent appointment of James Thouas as SMS National Account Director for Telstra.

About SMS

SMS Management & Technology is a results focused Management Services company employing over 800 people across Australia, Singapore and the United Kingdom. SMS service offerings are focused around operational strategy and execution. ICT, Banking and Finance, Defence, Government and Utilities are the five key industry sectors engaging SMS.
